INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Aberdeen Township Fire District No. 1
County of Monmouth
State of New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Aberdeen Township Fire District No. 1 (the "District") as of and for the year ended which collectively comprise the Fire District's basic financial statements as listed in the table of contents December 31, 2019.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements – accounting principles generally accepted in the United States of America and this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and auditing standards prescribed by the Division of Local Government Service, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2019, and the respective changes on financial position where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards* we have also issued our report dated October 2, 2020 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreement and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis is not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Our audit was performed for the purpose of forming an opinion on the financial statements of the District taken as a whole. The information included in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the financial statements, but is presented as additional analytical data as required by the Local Finance Board. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS – STATUTORY BASIS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Fire Commissioners
Aberdeen Township Fire District No. 1
County of Monmouth
State of New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements and the related notes to the financial statements of the Aberdeen Township Fire District No. 1, County of Monmouth, State of New Jersey (the "District") as of and for the year ended December 31, 2019, which comprise the District's basic financial statements and have issued our report thereon dated October 2, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures, that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS – STATUTORY BASIS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)**

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We noted certain immaterial matters that are discussed in the Comments and Recommendation section. We did not identifying any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed several instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* in the General Comments and Recommendations section of the audit that are immaterial matters are noted.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. This report is intended solely for the information of the District and its management, and other federal and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the Aberdeen Township Fire District #1's (District) annual financial report, the management of the District provides narrative discussion and analysis of the financial activities of the District for the audit year ending December 31, 2019.

The District's financial performance is discussed and analyzed within the context of the accompanying financial statements and notes following this section.

Discussion of Financial Statements Included in Annual Audit

The District prepares and presents its financial statements on several different bases, because of accounting requirements and for internal use purposes.

The first set of statements which consist of the Statement of Net Position, the Statement of Activities and Change in Net Position is prepared on an accrual basis and is in accordance with accounting principles generally accepted in the United States of America (GAAP) applicable to enterprise funds of state and local governments. These statements are the official financial statements of the Aberdeen Township Fire District #1.

After the first set of statements and the "Notes to the Financial Statements" that follow is the second set of statements. These statements are considered "Supplemental Information".

The District has historically presented its financial statements on a "GAAP Basis", and continues to do so because it relates more fairly to the annual budget for the same period. The annual budget records all encumbrances as charges against the adopted appropriation even if the items or services have not been received.

Contained in the supplemental information are statements that report the Statement of Net Position, Statement of Revenues, Expenditures and Change in Net Position and Statement of Expenditures Compared to Budget. These statements compare the "Budget" revenues and expenses to "Actual" revenues and expenses. They include operating revenues and expenses, nonoperating revenues and nonoperating expenses. Principal and Interest are reported in this statement as Debt Service expense, and depreciation is not reported as an expense. On the "GAAP" based and "Modified GAAP" based, Depreciation Expense is included, and only the Interest Expense component of the Debt Service expense is reported.

The Budget to Actual statement is a very important statement to the District management, because it is how we measure our financial performance, particularly as it compares to the approved and adopted annual budget and how it relates to the operational performance.

Other information or statements incorporated within the annual audit report are the Schedules of Cash and Cash Equivalents and Investments – Restricted and Unrestricted.

For the purpose of the Management Discussion and Analysis, the ensuing discussion will review the official statements of the District, those prepared on an accrual basis and in accordance with accounting principles generally accepted in the United States of America (GAAP) applicable to enterprise funds of state and local governments. This is the first set of statements included in the annual audit report.

Core Competencies

The Aberdeen Township Fire District #1 governs an all-volunteer fire company serving mainly the western portion of Aberdeen Township in the County of Monmouth and also some of the surrounding townships and boros. The Board of Fire Commissioners is made up of 5 members who are charged with serving the community by raising money through the budget process and expanding those funds for the protection of the township's residents.

The Fire District supports 1 firehouse and 5 pieces of fire apparatus, the last of which was purchased in 2018. Other expenses are incurred in the maintaining the volunteers with the best equipment to fight fires and maintaining the fire apparatus in top shape to provide a maximum amount of safety to the volunteers and residents.

The District's budget is voted on at the Annual Fire District Election which is by statute on the third Saturday of February. The budget process begins in October with preparing the details and is finalized and introduced in November and a public hearing is held in December. If the voters defeat the budget, then the Mayor and Township Committee have the right to set the budget. The budget is prepared on a calendar year basis.

The District has a contract with the fire company for use of their building. The Fire Company has approximately thirty-six (36) volunteer members. The District also participates on a mutual aid consortium for assistance to and from neighboring municipalities.

The main revenue of the District is property taxes which are subject to the annual fire district election. The other sources of revenue are surplus and miscellaneous revenue which accrues to the fund balance of the District.

The majority of the budget relates to salary, insurance, fire fighter protective equipment and uniforms, and repair and maintenance of fire trucks.

Accountability

The Aberdeen Township Fire District #1's mission statement is:

The Mission Statement:

Our mission for the Aberdeen Township Fire District #1 is to provide the ultimate in fire protection services. Always responsive to the residents' needs and the growing community, in compliance with the applicable laws, rules and regulations, the District will continue to set and exceed the standards for the protection of the property, while operating the most efficient system and maintaining a cost effective budget.

As the mission reads, this is who and what the District is accountable to. The District's accountability, first and foremost, is to protect the property. The goal is to provide a cost effective and reliable service, and at the same time to protect the property. This means the District is accountable to the residents, the agencies and people served using the same principles: cost effective, efficient, reliable and protective.

As a district, the District is also guided by or accountable to state government and the applicable rules and regulations that govern the Aberdeen Township Fire District #1. More specifically, the District is accountable to the Department of Community Affairs, Division of Local Government Services.

Management of the District

The Commissioners manage the daily operations of the District in conjunction with the Fire Official. The clerk of the District handles the bookkeeping operations.

Funding of Infrastructure and Debt Management

The District is required by statute to present its capital projects or capital assets acquisition to the voters of the District for approval. Once approved, the District can proceed to put the required financing in place; however, subject to the Local Finance Board's approval.

Auditors

The District Auditor is Gerard Stankiewicz, CPA of Samuel Klein and Company.

Audits can be obtained by contacting Aberdeen Township Fire District #1.

NOTES TO FINANCIAL STATEMENTS

ABERDEEN TOWNSHIP FIRE DISTRICT #1
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019

Note 1. **REPORTING ENTITY**

This report includes the financial statements of the Aberdeen Township Fire District #1 (the "District"), within the County of Monmouth, in the State of New Jersey and reflects the activities for the District that are under the control of the Board of Fire Commissioners.

The District was established in accordance with the provisions of N.J.S.A. 40A:14-70.

The District is not a component unit of any other financial reporting entity nor does the District have any component units to be presented in accordance with Governmental Accounting Standards Board (GASB) Statement No. 61.

The Aberdeen Township Fire District #1 is a political subdivision of the Township of Aberdeen Township, Monmouth County, New Jersey. The District's geographic area is described in Aberdeen Township of Ordinance 14-2.1. The District functions independently through a Board of Fire Commissioners. The Board is comprised of five members elected to three-year terms. The annual Fire District election is held the third Saturday of February.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

ABERDEEN TOWNSHIP FIRE DISTRICT #1
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2019

Note 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The government-wide financial statements (i.e., the statement of net position and the statement of change in net position) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct *expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to residents or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Basis of Accounting

The accrual basis of accounting is followed. Revenues are recognized in the accounting period in which they become measurable and available to finance expenditures of the fiscal period. Expenditures are recognized in the period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due.

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

Governmental Funds

General Fund – The General Fund is the general operating fund of the District and is used to account for its inflows and outflows of financial resources. The acquisition of certain capital assets, such as firefighting apparatus and equipment, is accounted for in the General Fund when it is responsible for the financing of such expenditures.

Governmental Funds (Continued)

Special Revenue Fund – The Special Revenue Fund is used to account for the proceeds of specific revenue sources, such as state or federal government grants and appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund – The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities such as fire houses and fire fighting apparatus. Generally, the financial resources of the Capital Projects Fund are derived from the issuance of debt or by the reservation of fund balance that must be authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund – The Debt Service Fund is used to account for resources that will be used to service general noncurrent liabilities.

Capital Assets – Property, plant and equipment purchased by the general fund and the capital projects fund are recorded as expenditures at the time of purchase. The historical cost, or if such cost is not practically determinable, the estimated historical cost, of such fixed assets is reflected in the Capital Assets account.

Noncurrent Obligations

Noncurrent debt is recognized as a liability of the Fire District when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other noncurrent obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

N.J.S.A. 40A:14-84 governs the procedures for the acquisition of property and equipment for Fire Districts, and *N.J.S.A. 40A:14-85 to 87* governs procedures for the issuance of any debt related to such purchases. In summary, Fire Districts may purchase firefighting apparatus and equipment and land and buildings to house such property in an amount not exceeding 5 mills on the dollar of the last assessed valuation of property within the district upon the approval of the legal voters. Debt may be issued up to \$60,000.00 or 2 percent of the assessed valuation of property, whichever is larger.

Fire District Taxes

Upon the proper certification to the assessor of the municipality in which the Fire District is located, the assessor shall assess the amount of taxes to be raised in support of the Fire District's budget in the same manner as all other municipal taxes. The collector or treasurer of the municipality shall then pay over to the treasurer or custodian of funds of the Fire District the taxes assessed in accordance with the following schedule: on or before April 1, an amount equaling 21.25% of all moneys assessed; on or before July 1, an amount equaling 22.5% of all moneys assessed; on or before October 1, an amount equaling 25% of all moneys assessed; and on or before December 31, an amount equaling the difference between the total of all moneys so assessed and the total amount of moneys previously paid over.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

Net Position

GASB Statement Number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* became effective for financial statements for periods beginning after December 15, 2011 and established standards for reporting deferred outflows of resources, deferred inflows of resources and net position. The adoption of this statement resulted in a change in the presentation of the statement of net position to what is now referred to as the statement of net position and the term "net assets" is changed to "net position" throughout the financial statements.

Net Position (Continued)

Net Position represents the difference between assets, deferred outflows, deferred inflows and liabilities in the government-wide financial statements. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any noncurrent debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statements when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Accounting for Pensions

Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

Accounting and Financial Reporting for Other Post-Employment Benefits ("OPEB")

Statement No. 75 – The scope of this Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service.

In addition, Statement No. 75 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net OPEB liability of a state or local government employer or nonemployer contributing entity that arise from other types of events. At transition to Statement No. 75, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported.

(Continued)

Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to OPEB, contributions made after the measurement date of the beginning net OPEB liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or nonemployer contributing entity's beginning net position and expense in the initial period of implementation.

Claims and Judgments

These events and obligations are recorded on the accrual basis, when the event occurs and the obligation arises.

Revenue Recognition

The District recognizes revenue on the accrual basis as earned. In the event of nonpayment are subject to municipal tax sale.

Contributions

Contributions received from various sources as grants are recorded in the period they become measurable. Donated assets are recorded at fair market value based on the cost estimates. They are recorded in the period in which the assets are donated to the District. All contributions and donations are presented separately after nonoperating revenues and expenses.

Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the Statement on Net Position.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus (Continued)

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the stated net position. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Budgets/Budgetary Control

Annual appropriated budgets are prepared in the fall of each preceding year for the general, special revenue, and debt service funds. The budgets are submitted to the State, Department of Community Affairs, Division of Local Government Services, Bureau of District Regulation for approval and are voted upon by the registered voters of the District at the annual fire district election on the third Saturday in February. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts. Transfers of appropriations may be made by District resolution at any time during the last two months of the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

Budgets/Budgetary Control (Continued)

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

- GASB Statement No. 83. *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after June 15, 2018 per *GASB Statement No. 95* implementation has been delayed one year. The District does not expect this Statement to impact its financial statements.

- GASB Statement No. 84. *Fiduciary Activities*. This objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify component units and postemployment benefit arrangements that are fiduciary activities.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2018 per *GASB Statement No. 95* implementation has been delayed one year. The District does not expect this Statement to impact its financial statements.

- GASB Statement No. 87. Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 per *GASB Statement No. 95* implementation has been delayed one year. The District does not expect this Statement to impact its financial statements.

- GASB Statement No. 88. *Certain Disclosure Related to Debt, including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after June 15, 2018 per *GASB Statement No. 95* implementation has been delayed one year. The District does not expect this Statement to impact its financial statements.

- GASB Statement No. 89. *Accounting for Interest Cost Incurred before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 per *GASB Statement No. 95* implementation has been delayed one year. Earlier application is encourage. The requirements of this Statement should be applied prospectively. The District does not expect this Statement to impact its financial statements.

- GASB Statement No. 90. *Majority Equity Interests – an Amendment of GASB Statements No. 14 and No. 61*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

Effective Date: The requirements of this Statement are effective for reporting periods beginning after December 15, 2018 per *GASB Statement No. 95* implementation has been delayed one year. Earlier application is encouraged. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis. The District does not expect this Statement to impact its financial statements.

Funding Policy

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Employee contributions for 2019 were seven and 50/100th percent (7.50%) of the employee's base wages.

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

The District's contributions to the plan for the past three (3) years are as follows:

Funding Policy (Continued)

The District reported a liability of \$494,056 and \$511,466 for its proportionate share of the net pension liability at December 31, 2019 and December 31, 2018, respectively. The net pension liability was measured as of June 30, 2019 and June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative District to the projected contributions of all participating entities, actuarially determined.

Actuarial Assumptions

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which rolled forward to June 30, 2019. This actuarial valuation used the following actuarial assumptions:

Inflation Rate:

Price	2.75%
Wage	3.25%

Salary Increases:

Through 2026	2.00%-6.00% (based on year of service)
Thereafter	3.00%-7.00% (based on year of service))
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2020 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates; the larger the impact on future financial statements.

Public Employees Retirement System (PERS) (Continued)

Actuarial Assumptions (Continued)

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>

Discount Rate

The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019 based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2019 and June 30, 2018 calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 -percentage point lower or 1-percentage-point higher than the current rate:

Note 7. OTHER POST EMPLOYMENT BENEFITS ("OPEB")

In addition to the pension benefits described in Note 6, the District provides post-retirement healthcare benefits for employees and their dependents who retire with 25 years or more of service, of which the last ten (10) years are with Aberdeen Township Fire District. Benefits consist of full medical coverage as if the individuals were still employed, until they become eligible for Medicare, at which time Medicare becomes the primary insurer and the District plan becomes the secondary insurer.

The District is a participant in the New Jersey State Health Benefit Program ("NJSHBP") for active and retired employees. The NJSHBP provides medical, prescription drug, mental health/substance abuse and Medicaid Part B reimbursement to retirees and their spouses and dependents.

Plan Description – NJSHBP

The NJSHBP as of July 1, 2018 had statewide for the local employee groups of 63,032 active and 27,871 retired for a total of 90,903 members. The District at January 31, 2019 had 3 active and 1 retired employees for a total participation of 4.

Note 7. **OTHER POST EMPLOYMENT BENEFITS ("OPEB") (CONTINUED)**

Plan Description – NJSHBP (Continued)

The NJSHBP aggregate other post-employment benefit (OPEB) cost (expense) is calculated based on the aggregate required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The OPEB obligation represents the total of cumulative difference between the OPEB cost since the effective date of GASB No. 45 and the employer's contributions and other adjustments to the NJSHBP.

Funding Policy – The contribution requirements of plan members are established and may be amended by the state legislature. Participating local government units are contractually required to contribute at a rate assessed each year by the NJSHBP. The NJSHB Commission sets the employer contribution rate based on the annual required contribution of the employers (ARC) as established in an annual rate recommendation report.

The NJSHBP issues a publicly available financial report that includes financial statements and required supplementary information for the NJSHBP and the actuarial valuation. Those reports may be obtained by writing to the State of New Jersey Department of Treasury, Division of Pension and Benefits, 50 West State Street, Trenton, NJ 08625-0299 or on the State of New Jersey website.

The State Health Benefit Local Government Retired Employees Plan (the Plan) is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, refer to the New Jersey Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report, which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

NOTE 7 OTHER POST EMPLOYMENT BENEFITS ("OPEB") (CONTINUED)

Plan Description – NJSHBP (Continued)

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission, Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: (1) retired on a disability pension; or (2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or (3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or (4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

GASB Statement No. 75 requires participating employers in the plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources and collective OPEB expense. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the plan's nonspecial funding situation during the measurement period July 1, 2018 through June 30, 2019. Employer and nonemployer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of OPEB amounts by employer and nonemployer may result in immaterial differences.

The total nonemployer OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years.

Discount Rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Aberdeen Fire District No. 1 has contributed \$5,000.00 per year for the years 2003-2019. The funds have not been audited.

Note 11. **COMMITMENTS AND CONTINGENCIES**

Litigation – The District's attorney representation has revealed no material contingent liability for the District.

Note 12. **SUBSEQUENT EVENT: COVID-19 CORONAVIRUS PANDEMIC**

The COVID-19 Coronavirus outbreak in the United States has caused the Governor of the State of New Jersey to mandate closures and a curfew for all nonessential citizens and businesses. The management of the District (which is essential) has evaluated the impact of the situation and has determined that there is no adverse impact on its December 31, 2019 financial statements (*audited*). Financial impact in 2020 is uncertain at this time. A significant portion of the revenue to support District 2020 operations is taxation all collectible and inspection fees potential reduction; however, the final outcome for 2020 is uncertain at this time. It is not known at this time if there are any federal or state funds available for impact relief.

GENERAL COMMENTS AND RECOMMENDATIONS

GENERAL COMMENTS AND RECOMMENDATIONS
DECEMBER 31, 2019

Scope of Examination and Conditions of Records

Our examination covered the funds of the Board of Fire Commissioners, Fire District #1, Aberdeen Township handled by the bookkeeper of the Fire District.

The financial records were maintained in adequate condition.

Minutes of Board meetings were properly maintained.

Cash and Cash Equivalents and Investments

The balances in banks at December 31, 2019 were verified with the bank and reconciliations and/or statements issued by the depositories.

Our examination revealed that the Fire District maintains its investable funds in a money market fund.

Examination of Claims

The budget as prescribed on Schedule RSI-4 is the detail as maintained by the Office Secretary. It is in agreement in total to the approved budget. There were five (5) line items overexpended by insignificant amounts; however, the total budget was not.

In verifying expenditures, computations were tested on claims approved and paid. No attempt was made in this connection to establish proof of rendition, character or extent of services, nor quantities, nature, propriety of prices or receipt of materials, these elements being left necessarily to internal review in connection with approval of claims.

Claims paid during the period under audit were examined on a test basis to determine that they are submitted on Board vouchers, itemized, signed by the officials as to approval for payment, allocation to the proper accounts and charged to the proper fiscal period, and in agreement with bill lists set forth in the approved minutes of the Board.

Payroll

The payroll examination revealed that salaries were paid in accordance with the salaries authorized by the Board and within the guidelines set up in the annual budget.

GENERAL COMMENTS AND RECOMMENDATIONS
(CONTINUED)
DECEMBER 31, 2019

Contracts and Agreements Required to be Advertised for N.J.S. 40A:11-4 (as amended)

N.J.S. 40A:11-4 (as amended) states, "Every contract or agreement, for the performance of any work or the furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only after public act or specifically by any other law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding \$17,500.00 since the District does not employ a Qualified Purchasing Agent ("QPA") except by contract or agreement."

The members of the Aberdeen Township Fire District #1 have the responsibility of determining whether any contract or agreement might result in violation of the statute and, when necessary, the Board Attorney's opinion should be sought before a commitment is made.

In addition, the following items were purchased under state or cooperative purchasing contract:

Fire Equipment
Fire Truck Repairs

Firefighter Apparel
New Firehouse Roof

There was a general resolution documenting the approval of the purchase of the fire equipment, apparel and repairs under state contract. While it is legal and proper to purchase goods or services under State contract, resolutions are required for any purchases in excess of the Local Public Contract Law threshold of \$17,500.00. These are isolated incidences and were however, discussed in the minutes of the Commissioners.

Inasmuch as the system of records did not provide for any accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

The results of our examination indicated that no individual payments, contracts or agreements were made "for the performance of any work or the furnishing or hiring of any materials or supplies", in excess of the statutory thresholds where there had been no advertising for bids in accordance with provisions of N.J.S.A. 40A:11-21. It is suggested that consideration be given to utilizing a "Quote Documentation" sheet for all expenditures greater than \$2,625.00 (the quote threshold).

GENERAL COMMENTS AND RECOMMENDATIONS
(CONTINUED)
DECEMBER 31, 2019

Financial Procedures

It is suggested that for all financial processes within each function that a review, updating and documentation of all procedures be done in order to be in compliance with recent accounting and auditing requirements related to internal control.

General Ledger

The District does not maintain a general ledger as required by the General Accounting Office (GAO). It should be noted that an adequate trail exists for the cash receipts and cash disbursements records.

Miscellaneous

An exit conference was held in accordance with Auditing Standards Generally Accepted in the United States of America for governmental entities.

Follow-up on Prior Year Recommendation

A corrective plan of action was not required for 2018 since there were no recommendations.

The general problems and weaknesses that were documented prior year, including the areas of accounting and controls over revenues, expenditures and payroll, have been improved upon by the District's clerk.

Acknowledgment

During the course of the audit, we received the cooperation of the officials of the Fire District and we appreciate the courtesies extended to us.

RECOMMENDATIONS

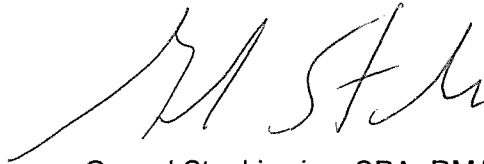

DECEMBER 31, 2019

None.

The problems and weaknesses noted in our audit were not of such magnitude that they would affect our ability to express an opinion on the financial statements taken as a whole.

Should any questions arise as to my comments or recommendations, or should you desire assistance in implementing my recommendations, please do not hesitate to contact me.
